Act 451

Soil Erosion and sedimentation Control Permit Application

**SOIL EROSION AND SEDIMENTATION CONTROL PERMITS
APPLICATION INFORMATION AND INSTRUCTIONS**

A Soil Erosion and Sedimentation Control permit is needed if the earth change:

- Disturbs more than one acre of land or
- Is within 500 feet of a lake or stream, as define under Administrative Rule R323.1701 to 714, Part 17, Soil Erosion and Sedimentation Control

Please review the form before filling in the required information. The entire form must be completed before submitting for processing.

Item 2 - refers to the location of the earth change or project.

Item 3 - briefly describes the earth change, size includes the entire area Disturbed, i.e. cut, fill, stockpile, etc.

Item 5 - be sure to list the responsible individual actually "on site", along with the other information.

Item 7 - site or plot must be filled in by applicant-or attach copy.
(Map Check List)

Information/additional items to include with application:

- Two sets of plans for engineered projects, or if required by the County Enforcing Agency.
- For non-engineered projects, your site plan, with additional information listed.
- Proof of ownership, included with legal description.
- Check for appropriate fees, payable to SANILAC COUNTY DEPARTMENT OF CONSTRUCTION.

IN THE EVENT THAT EARTH-MOVING ACTIVITIES OCCUR PRIOR TO ISSUANCE OF A PERMIT, THE OWNER IS SUBJECT TO A "FAILURE TO COMPLY FEE" OF \$250.00.

R323.1703/ Soil Erosion and Sedimentation control plan requirements.

Rule 1703. A person shall prepare a soil erosion and sedimentation control plan for any earth change identified in R 323.1704. A person shall design the plan to effectively reduce accelerated soil erosion and sedimentation and shall identify factors that may contribute to soil erosion or sedimentation, or both. The plan shall include, but not be limited to, all of the following:

- (a) A map or maps at a scale of not more than 200 feet to the inch of as otherwise determined by the county or local enforcing agency. A map shall include a legal description and site location sketch that includes the proximity of any proposed earth change to lakes, streams, or both; predominant land features; and contour intervals or slope description.
- (b) A soils survey or a written description of the soil types of the exposed land area contemplates for the earth change.
- (c) Details for proposed earth changes, including all of the following:
 - (i) A description and the location of the physical limits of each proposed earth change.
 - (ii) A description and the location of all existing and proposed on-site drainage and dewatering facilities.
 - (iii) The timing and sequence of each proposed earth change.
 - (iv) The location and description for installing and removing all proposed temporary soil erosion and sediment control measures.
 - (v) A description and the location of all proposed permanent soil erosion and sediment control measures.
 - (vi) A program proposal for the continued maintenance of all permanent soil erosion and sediment control measures that remain after project completion, including the designation of the person responsible for the maintenance. Maintenance responsibilities shall become a part of any sales or exchange agreement for the land on which the permanent soil erosion control measures are located.
